BRAINERD SHOPMEN WALK OUT ON SATURDAY

1250 MEN LAY DOWN THEIR TOOLS AT 10 A. M.--NO DISORDER

Men Quietly Formed in a Body and Walked Down Town to Labor Hall, Where a Meeting was Held; Publicity Committee Has Been Named

On Minnesota & International Railway Shopmen at Bemidji and International Falls Quit This Morning; Strike News of Large Rail Centers

Promptly at the stroke of 10 o'clock Saturday morning Northern Pacific railway shopmen numbering approximately 1,250, laid down their tools and quit work. This walk-out takes out all shopmen except laborers, clerical force, store room and round house.

The men formed in a body, walked down town to the Labor hall in the Iron Exchange building where the first strike meeting was immediately held.

A publicity committee will be elected today by the men now out which will furnish the press with the strike facts as seen by the men.

Up to 10:45 a. m. the Minnesota & International railway headquarters in Brainerd had no knowledge, it was stated at the offices, as to any men going out on their line.

Fifty men are employed at the Bemidji shops and eight or ten at International Falls.

Soldiers were in Brainerd today shortly after the shopmen went out, but they had no connection whatever with the strike. They were men of Co. K of the Sixth Infantry, Minnesota National Guard, of Bemidji, on their way to Fort Snelling where they will encamp 15 days. They were under the command of Captain F. H. Hayner. The men had lunch in Brainerd and then boarded the 12:50 train for St. Paul. The arrangements for their encampment were made several months ago.

On the Minnesota & International railroad fifty-nine men marched out at 10 a. m. which is one hundred per cent of the mechanical crafts. Fifty of these are out at Bemidji and the remaining nine at International Falls. No other branch of service is affected up to 12 noon Saturday.

The executive committee of the shop crafts met this afternoon at 2 o'clock to attend to matters pertaining to the strike. At that time they had received no further communications from the outside. They announce that at the Brainerd shops the walk-out is 100 per cent. A publicity committee will be elected this afternoon and the public will be given information about the strike, its causes and the facts of its progress, by this committee. The Dispatch will carry the copy given out by this committee from time to time so that the public may be advised of the grounds of the crafts in walking out.

(By United Press) America today was confronted with one of the greatest strikes since 1894. Four hundred thousand railway shopmen were walking out on strike, while 650,000 miners were already striking.

As the railroaders were trooping from the shops throughout the country, President Harding was addressing representatives of the miners and operators in Washington in an effort to stop the coal strike which has been in progress 13 weeks.

The public will not feel the strike, in the opinion of railroad executives, unless more unions join it. Machinists, blacksmiths, boiler makers, carmen, sheet metal workers and electricians quit their jobs today. Maintenance of way men, clerks, signal men and stationery firemen are taking a strike vote.

Twin City Men Out St. Paul, July 1.—Railroad shop workmen dropped their tools at 10 o'clock today and left their positions to join the nation-wide strike, in protest against wage cuts. Almost to a man the workers of the six crafts affected quit work.

About 4,000 workers in St. Paul, and 5,000 in Minneapolis are effected by the order. Union officials said the strike here would be one hundred per cent effective.

Northwestern and Milwaukee Roads Milwaukee, July 1.—Orderliness marked the walk-out of 5,700 shopmen of the Northwestern and Milwaukee railroads here today in accordance with the strike order issued by union headquarters. Practically all of the men went to work this morning and at 10 o'clock packed up their tools, walked out, and became a part of the 400-

COLUMNS OPEN TO MEN

The Dispatch columns are open to men of the shops. Announcements made by the Publicity committee will be gladly published by the Dispatch so as to give their side of the controversy.

America, 10,000. International Brotherhood of Electrical Workers, 12,000. Brotherhood of Railway Carmen of America, 160,000.

Repairmen, not included in above, 110,000. Apprentices, 20,000.

Extra Guards Employed Washington, July 1.—Extra guards are being placed around the principal railroad shops of the country because of the shopmen's strike.

A clash between employees and the extra guards at the Ivy round house here last night was narrowly averted. The rail workers thought the special police were strike breakers and were prepared to drive them out when local police quelled the uprising.

Chicago Walks Out Chicago, July 1.—Four thousand shop workers were added to the nation's idle today when they went on strike against wage reductions.

Promptly on the stroke of 10, workers dropped their tools in all shops in Chicago—the largest strike center in the country—and shops were closed.

One hundred thousand men, it was estimated by union heads, went on strike here. Guards appeared as the men quit their work, and were prepared to protect railroad property.

New York Situation New York, July 1.—The railroad strike today caused great congestion in the big New York railway terminal. Through trains were not affected, but suburban traffic was disrupted and there were no men on hand to couple up cars. Dense crowds of people tried to get out of town for the week end, and jammed the central station.

Police Busy at Cleveland Cleveland, July 1.—Police squads dispersed a parade of more than 1,000 striking shopmen here today as the strikers marched through the streets to a mass meeting.

When police first ordered the strikers to disperse, they refused. Riot calls brought hundreds of police reserves, and the parade was abandoned.

600 "Penny" Men Out Columbus, Ohio, July 1.—Six hundred maintenance of way employees of the Pennsylvania system today walked out in sympathy with the shop workers. The strike was unauthorized.

Statement by Pennsylvania Line Columbus, July 1.—Three thousand shop workers of the Pennsylvania and Hocking Philadelphia railroads laid down their tools and marched through the business district to strike headquarters.

The Pennsylvania shops will probably continue to operate on reduced time schedules, executives said.

"Striking Against Government" St. Paul, July 1.—"The men are really striking against the government," said Charles Donnelly, president of the Northern Pacific, upon his return from Chicago today where railroad executives discussed the strike of shop men with the labor board.

"There is little to say at present," Donnelly said, "everything has been threshed out and the men are now really striking against the government. Trains will be kept running on the Northern Pacific and I see no reason why train service should be delayed by the strike as it does not include trainmen."

About 7,000 shopmen on the Northern Pacific are affected by the strike.

How Men Line Up On Strike Today Chicago, July 1.—The following table prepared from information supplied by the federated shopcrafts, indicates the number of men in each craft scheduled to strike at 10 o'clock this morning.

HEAVY FIRING IN CENTER OF DUBLIN REBELS SNIPING

FREE STATE ARMY OPENED ASSAULT ON REBEL STRONGHOLDS IN SACKVILLE ST.

BOMB EXPLOSIONS HEARD AT RATE OF 10 OR 12 AN HOUR; 40 DEAD, 180 WOUNDED

(By United Press) Dublin, July 1.—Heavy firing began in the center of Dublin shortly after 2 o'clock this afternoon as the Free State army opened assault on the new rebel strongholds in Sackville street.

The rebels repelled vigorously the attack of the government troops. They were shooting from the windows of the postoffice and from doors and windows of two large hotels which they have fortified in preparation for another desperate stand such as they made at the Four Courts.

The rebels concentrated in their new fortresses during the night, and were ready to give battle this morning. They hold an entire city block.

The rebels spread the battle through the streets of the city; bands of skirmishers sniping throughout the streets. They have 20 strongholds from which small bands of men without uniforms but heavily armed, are operating.

Regular troops rushed about the city in lorries and are ambushed at frequent intervals. Bomb explosions were heard at the rate of 10 or 12 an hour.

Estimated casualties have mounted to 40 killed and 180 wounded.

A proclamation has been issued summoning the Free State parliament to meet July 15.

McCUMBER CLAIMED TRIED TO REPRESENT ALL NORTH DAKOTA

VETERAN SENATOR ALLEGED CAUGHT IN THE WHIRLPOOL OF FACTIONALISM

FORMER GOVERNOR LYNN FRAZIER AMASSING A COMFORTABLE LEAD IN VOTES

(By United Press) Fargo, July 1.—Senator Porter J. McCumber tried to represent all of the people of North Dakota and was caught in the whirlpool of factionalism.

This appeared to be the basic reason for his defeat in the republican primaries Wednesday.

Editorially the Fargo Forum charged that McCumber had played up to the nonpartisan league last fall and roused the ire of the independent forces fighting the league. Careful investigation into political circles, however, lead to the belief that political favors McCumber handed out caused his defeat.

Appointment of Andrew Miller to the federal judgeship and of James Shea as United States marshal and Gunder Olson as revenue collector, met with the disapproval of many leading lights in the Independent Voters association, it was stated.

Former Governor Lynn Frazier was crawling up a substantial margin on McCumber as additional returns come in.

With 1,773 precincts the vote stood Frazier, 77,323; McCumber, 72,425, a lead of 4,898 for Frazier.

In 1,717 precincts Nestos held a lead of 16,010. The vote was Nestos, 84,355; Baker, 69,345.

Milwaukee, July 1.—In one of the best battles seen in years here, Johnnie Mendelsohn defeated Joe Jawson in ten rounds last night.

PRES. HARDING TO SEEK TO END THE BIG COAL STRIKE

50 LEADING COAL OPERATORS AND UNION LEADERS ASSEMBLED AT WHITE HOUSE

COAL STRIKE, NOW IN 13TH WEEK, MUST BE TERMINATED, SAID PRESIDENT HARDING

Washington, July 1.—President Harding's move to end the national coal strike began here today.

Fifty leading coal operators and the union leaders assembled at the White House to be told by the president that the government expects them to put their feet under a table, settle their differences and start the coal mines humming again. The coal strike, now in its 13th week, must be brought to an end to protect public interests, Harding was to say, although he was expected to emphasize that the administration is not contemplating the use of force, at least at this time.

It was forecast that the president would simply state his views of the seriousness of the strike situation and say that the administration is extending its good offices.

From reliable sources it was learned there would be no open threat but between the lines of the president's remarks, it was believed the operators and miners would be able to read a warning to get busy and stay busy. Then the operators, miners representatives, were to meet with Secretary Hoover and Davis and get down to business.

The purpose of today's conference is to agree on terms under which the disputants can get together and finally work out a settlement. The miners, long willing to confer with the operators, were frankly pessimistic when they went to the White House.

John L. Lewis, international president of the United Mine Workers, and other officials, stated openly their opinion that the operators called to Washington are "hand picked" and will never agree to meeting the miners on a national scale, but will "stand pat" for state or district settlement.

This charge was vigorously denied by A. M. Ogle, president of the National Coal association, who declared operators assembled were a representative group.

Asked Both Sides to Get to Work

Washington, July 1.—President Harding today called upon the striking miners and the coal operators of the country to resume mining operations at once and then adjust their differences in a joint conference.

Speaking before about 50 chieftains of the United Mine Workers of America, and leading coal operators, at the White House, the president issued an emphatic warning to the warring factions that unless the strike is soon terminated, the federal government in the people's interest, will exert all its vast powers to force an ending of the walkout.

The president, however, mentioning the menace the country faces because of the dwindling supply of coal, informed both operators and miners that the interest of the people must be protected and that the government proposes to take steps toward that end unless the strike is ended through joint conferences.

Harding offered a warning that a permanent solution of the frequent strikes in the coal fields must be ended. He made a fervent appeal that operations be resumed pending adjustment of the strike.

While at the White House, the operators and miners were assured by President Harding that during the conferences here they will be immune from prosecution under the anti-trust laws.

Attorney General Daugherty was present and backed up the words of the president.

TAG DAY GIRLS ON FIRST DAY GAINED \$600; MORE TODAY

BRAINERD SHOPMEN WALK OUT ON SATURDAY

1250 MEN LAY DOWN THEIR TOOLS AT 10 A. M.--NO DISORDER

Men Quietly Formed in a Body and Walked Down Town to Labor Hall, Where a Meeting was Held; Publicity Committee Has Been Named

On Minnesota & International Railway Shopmen at Bemidji and International Falls Quit This Morning; Strike News of Large Rail Centers

Promptly at the stroke of 10 o'clock Saturday morning Northern Pacific railway shopmen numbering approximately 1,250, laid down their tools and quit work. This walk-out takes out all shopmen except laborers, clerical force, store room and round house.

The men formed in a body, walked down town to the Labor hall in the Iron Exchange building where the first strike meeting was immediately held.

A publicity committee will be elected today by the men now out which will furnish the press with the strike facts as seen by the men.

Up to 10:45 a. m. the Minnesota & International railway headquarters in Brainerd had no knowledge, it was stated at the offices, as to any men going out on their line.

Fifty men are employed at the Bemidji shops and eight or ten at International Falls.

On the Minnesota & International railroad fifty-nine men marched out at 10 a. m. which is one hundred per cent of the mechanical crafts. Fifty of these are out at Bemidji and the remaining nine at International Falls. No other branch of service is affected up to 12 noon Saturday.

The executive committee of the shop crafts met this afternoon at 2 o'clock to attend to matters pertaining to the strike. At that time they had received no further communications from the outside. They announced that at the Brainerd shops the walk-out is 100 per cent. A publicity committee will be elected this afternoon and the public will be given information about the strike, its causes and the facts of its progress, by this committee. The Dispatch will carry the copy given out by this committee from time to time so that the public may be advised of the grounds of the crafts in walking out.

(By United Press.) America today was confronted with one of the greatest strikes since 1894. Four hundred thousand railway shop men were walking out on strike, while 650,000 miners were already striking.

St. Paul, July 1.—Railroad shop workmen dropped their tools at 10 o'clock today and left their positions to join the nation-wide strike, in protest against wage cuts. Almost to a man the workers of the six crafts affected quit work.

About 4,000 workers in St. Paul, and 5,000 in Minneapolis are affected by the order. Union officials said the strike here would be one hundred per cent effective.

Northwestern and Milwaukee Roads

Milwaukee, July 1.—Orderliness marked the walk-out of 5,700 shopmen of the Northwestern and Milwaukee railroads here today in accordance with the strike order issued by union headquarters. Practically all of the men went to work this morning and at 10 o'clock packed up their tools, walked out, and became a part of the 400-

000 workers in the United States who are banded together in the greatest strike in history.

Great Northern Shopmen Out

Fargo, July 1.—Two hundred Great Northern shopmen at Devils Lake and 125 Northern Pacific shopmen at Dilworth, Minn., walked out today.

Master Mechanic Emerson at Dilworth said the shops will be operated despite the walk-out.

Women Stay on Job

St. Paul, July 1.—Women are poor strikers.

A number of women car cleaners, window washers and oilers failed to join the general walk-out of shop workers here today and at the Como-Dale and Jackson street shops a number of women remained on the job. At these parts it was reported the strike was not more than 90 per cent effective.

"I am no scab," said one well dressed woman worker who proudly marched through the gates with the others.

"Striking Against Government"

St. Paul, July 1.—"The men are really striking against the government," said Charles Donnelly, president of the Northern Pacific, upon his return from Chicago today where railroad executives discussed the strike of shop men with the labor board.

"There is little to say at present," Donnelly said, "everything has been threshed out and the men are now really striking against the government. The purpose of today's conference is to agree on terms under which the disputants can get together and finally work out a settlement. The miners, long willing to confer with the operators, were frankly pessimistic when they went to the White House. John L. Lewis, international president of the United Mine Workers, and other officials, stated openly their opinion that the operators called to Washington are "hand picked" and will never agree to meeting the miners on a national scale, but will "stand pat" for state or district settlement.

This charge was vigorously denied by A. M. Ogle, president of the National Coal association, who declared operators assembled were a representative group.

Asked Both Sides to Get to Work

Washington, July 1.—President Harding today called upon the striking miners and the coal operators of the country to resume mining operations at once and then adjust their differences in a joint conference.

Speaking before about 50 chieftains of the United Mine Workers of America, and leading coal operators, at the White House, the president issued an emphatic warning to the warring factions that unless the strike is soon terminated, the federal government in the people's interest, will exert all its vast powers to force an ending of the walkout.

The president, however, mentioning the menace the country faces because of the dwindling supply of coal, informed both operators and miners that the interest of the people must be protected and that the government proposes to take steps toward that end unless the strike is ended through joint conferences.

Harding offered a warning that a permanent solution of the frequent strikes in the coal fields must be ended. He made a fervent appeal that operations be resumed pending adjustment of the strike.

While at the White House, the operators and miners were assured by President Harding that during the conferences here they will be immune from prosecution under the anti-trust laws.

Attorney General Daugherty was present and backed up the words of the president.

TAG DAY GIRLS ON FIRST DAY GAINED \$600; MORE TODAY

SUCCESS ATTAINED JUNE 30 WAS REMARKABLE CONSIDERING WEATHER CONDITIONS

DISPATCH PRESENTS PROGRAMS FOR FIRST FOUR DAYS OF 50TH ANNIVERSARY

Solicitors working under the direction of Miss Dorothy Carmichael, twenty-six girls at a time in three hour shifts, on the first Tag Day for the benefit of the Fiftieth Anniversary celebration and home coming collected \$637.78. This is considered most satisfactory, taking into consideration the rainy, cloudy day.

The girls are again at work today and expect to attain the goal, \$1,000 for the two days and may exceed that figure.

Executive Meeting

Much interest was manifested at the executive meeting held at the Chamber Friday evening.

J. P. Anderson of the Railroad Day exercises said two coaches of old time employees of the Northern Pacific railway company would arrive on Saturday to take part in the day's ceremonies.

Barbecue at Lum Park

A barbecue in charge of a professional will be given at Lum park all the anniversary week. He is a colored man named R. A. Carew and is putting in a pit thirty feet long. He will serve meat sandwiches with a special sauce and coffee at 16c. He will sell the meat, roasted and boneless, at 50c a pound. Many people going to the park will be sure to take advantage of the reasonable prices set here.

The executive committee adjourned to Thursday, 5 p. m., at the Chamber.

The following programs for the various days of the celebration are given herewith. All are subjects to various changes which may be rendered necessary at times, but in the main they cover the essentials.

Reception Day, July 3

Reception Day, Monday, July 3, is in charge of Col. A. J. Halsted. His committee met at the Chamber of Commerce Saturday afternoon and the members were assigned their badges, printed in blue and gold on white silk.

The reception committee, assisted by the Brainerd Municipal band, will meet all trains commencing with the 11 o'clock morning trains.

Col. Halsted at other times expects to have the band serenade the visitors at the various hotels, etc.

The reception committee will also act as individual information bureaus. Strangers and home comers will be arriving all week.

Tuesday, Fourth of July

Tuesday, July 4th, the week's anniversary celebration gets under way with a big day. It is in charge of Art Lyndon and cooperating with him is the Farm Bureau.

On the Fourth of July there will be a nine hole medal play for women and nine hole medal play for men at the Brainerd Country club. In addition there will be a driving contest for women and an approaching contest for men. Players may start at any time during the day after paying an entry fee of 25c for each event. Suitable prizes will be given for each event.

M. Mare, chairman of committee at Lum park, announced that A. I. Hayes of St. Paul, of the Department of Agriculture, will address the Farm Bureau members and their friends at the park.

John Thabes will have full charge of the program of sports.

Wednesday, July 5, Old Settlers Day

Wednesday, July 5, is Old Settlers' Day, with Henry I. Cohen chairman.

The committee has arranged for 100 automobiles for the convenience of the old settlers of Brainerd and former residents who will be tagged with a badge indicating that they're home-comers, for an automobile tour of the range towns, the return trip to be made concluding at the Chamber of Commerce.

Automobiles will be in readiness at 8:30 A. M. in front of the Iron Exchange building. The trip will be in charge of Carl Zapffe, who will outline the tour and each driver will be given his route, properly logged and directions all printed.

At noon luncheon will be served at the parlors of the First Baptist church.

ORDINARY varnish would have been ruined. But, luckily, the floor was Valsparred.

Soaked for hours with puddles of hot water, it emerged absolutely undamaged—never a dull streak, never a splotch of white. For Valspar is absolutely waterproof.

There are any number of places throughout the house that need just such a varnish—a varnish that is accident-proof, that will not mar or turn white under any conditions.

Fruit acids, greases and oils, hot, soapy water have no effect upon Valspar.

No matter what it is, from the drain-board in the kitchen to the front door—anything that's worth varnishing is worth Valsparing.

In regard to the automobile tour, Chairman Cohen has obtained 150 automobiles operating under the direction of Carl Zapffe. The latter will take the pilot car and leave promptly at 8:30 o'clock and head the line. Cars will be started on their way as rapidly as the people assemble. It will probably take half an hour before all cars are loaded. The trip is 47.4 miles long and will take two and a half hours to complete.

plete. The roads are excellent, but for sight seeing parts must be traveled slowly.

Mr. Zapffe has gone over the route and obtained the distances for each turn to be made and points of interest along the route. The itinerary will be printed and distributed to each driver, who will tell the passengers the names of the lakes passed, the names of the villages and mines, and other interesting or important things.

Each driver will set his speedometer at zero at the Iron Exchange building. All distances shown on the route sheet have been measured from this point of beginning.

Crosby and Ironton officials have been notified of the tour and have been asked to assure the right of way through their towns.

Imgrund's service car will be at the end of the line of cars. All drivers having trouble should drop out of the line and wait until the service car arrives to help them.

Only one stop will be made and passengers dismount. That will be at the Pennington mine, open pit. This place is a convenient stop for a long line of cars. Visitors will have a good opportunity to see an open pit in operation. Other mines will be seen in passing. An early start is desirable. Cars should be on hand promptly.

Children's Day, July 6
Children's Day is set for Thursday, July 6, when chairman W. H. Cleary will be assisted by Mesdames C. L. Burnett and R. T. Campbell, John F. Woodhead and others.

At 9:30 sharp, the children in parade will come to the fountain at Gregory Park and ask for Mrs. Burnett. All children, none excepted, will receive souvenir toy balloons from Mrs. R. A. Beise and her committee.

UNDOUBTEDLY a vast amount of pressure is being brought to bear on Congress to abandon all efforts to write a new tariff at this session. It is argued that this is an inopportune time, that economic conditions are not normal, and we should wait until normal conditions prevail. It is also urged by the same interests that for this country to enact a protective tariff would invite retaliation by the other nations.

Those who so argue either are grossly and inexcusably ignorant of what is going on elsewhere in the world or they refuse to see in the action of other nations any lesson for the United States. The United States is practically the only nation of any consequence which has not written a new tariff since the end of the World war. While free traders and foreign propagandists tell this country it is unwise to attempt to frame tariff laws with the world so upset, it is very significant that other countries have not delayed protecting their home markets and their home industries. They have acted upon the very wise and patriotic theory that the worse the general conditions, the more need there is for looking after the interests of their own people.

These new foreign tariffs, without exception, make a stiff advance in rates and, without exception, have been enacted to protect the home markets and industries of the nations enacting them. Great Britain, her colonies and dominions, have led the world in coming to a protective tariff basis since the World war. And in addition to a high protective tariff put into effect Oct. 1, 1921, the United Kingdom has also an anti-dumping provision which prohibits the importation and sale of goods at prices below the cost of home production.

THE SUBSIDY BILL

SOME of our public men and our newspapers opposing the subsidy bill seem to think that anything bearing the word "subsidy" should be opposed, without investigation, on the general principle that subsidy is a polite word for stealing. Americans who are in honor bound to use their brains in their country's behalf ought to know better. They should be ashamed to oppose the ship subsidy bill unless after diligent inquiry they honestly believe it to be wrong. In that case they should propose some other method of meeting the present situation.

There is a condition confronting the United States in dealing with oceanic transportation which demands clear thinking and courageous action. It is no time for waving aside a ship subsidy merely because former proposals for ship subsidies have been objectionable. The situation that now exists never existed before. Because the policy proposed has never been adopted before is not a very good reason why it should not be adopted now.

In addition to the advantage of cheap wages and lower costs generally, the foreign nations that have made a specialty of shipping have granted subsidies to builders and owners. It is by this device that England and Germany ruined a fine fleet of ships that once carried the American flag into every port in the world. The object of the proposed subsidy bill is to build up an American marine that will prevent the freight nearly all going to foreign ships, as at present, because of the great financial burdens to American shipping.

BIG INCOMES DWINDLING

SOME most interesting and surprising figures are shown in a report of the Federal income tax bureau giving the individual incomes returned from 1914 to 1920, which was published a few days ago. These figures are, indeed, quite important, indicating as they do, if the returns reflect the facts, that the rich are no longer growing richer and the poor poorer, as was formerly frequently asserted. It is hard to believe that the larger incomes are so few in number, but these figures show that to be the case, and if correct the rich now appear to be growing poorer and the poor richer.

The report, in brief, shows according to a New York correspondent that within three years the number of those having incomes of as much as \$100,000 or more has been nearly halved. On the other hand the number of those reporting incomes from \$1,000 to \$3,000 increased from 2,479,465 in 1917 to 5,241,266 in 1920, in which year there were 7,259,944 persons in the United States who reported incomes of \$1,000 or more. Of these thirty-three had incomes of \$1,000,000 or more; 3,649 had incomes of \$100,000 or more, and only 226,120 had incomes of \$10,000 or more.

The correspondent gave publicity to these figures after making an exhaustive analysis of the report, and they may be relied upon as correct in all details.

OSCAR H. SMITH, State Immigration Commissioner, in his weekly crop report, says there has been no deterioration of crops in Minnesota, and the weather conditions are now the most favorable of the year.

IMPORTERS have been bringing in razors from abroad at 21 cents each and selling them to the public at \$5.00 each, according to Senator McCumber. Talk about carving the public!

TO HEAD OFF GENERAL GOROZAVE WHO THREATENED TO LEVY TRIBUTE IN FIELDS

REPORTED 1,000 ADDITIONAL SOLDIERS LANDED BY BOAT FROM VERA CRUZ

(Copyright 1922 by United Press.)
Tampico, July 1.—Federal troops were rushed into the Tampico oil fields

today to head off General Gorozave who has threatened to return tomorrow to levy tribute upon the American oil company. Three hundred and fifty cavalry men arrived from the south. A detachment of 150 infantry men was sent from Tampico. It is reported 1,000 additional soldiers landed after being transported by boat from Vera Cruz.

More Bandit Raids

Washington, July 1.—More bandit raids against oil camps have burst out in the Tampico district, the state department was advised today.

Consul Shaw reported the rebel General Larragha has appeared at the Palo Blanco camp of the Penn.-Mex.

Fuel company, an American concern, near Tuxtla and demanded 10,000 pesos by July 1.

Shaw forwarded no other details, and did not state whether the rebels had seized the camp.

SATURDAY, JULY 1, 1922

UNDOUBTEDLY a vast amount of pressure is being brought to bear on Congress to abandon all efforts to write a new tariff at this session. It is argued that this is an inopportune time, that economic conditions are not normal, and we should wait until normal conditions prevail. It is also urged by the same interests that for this country to enact a protective tariff would invite retaliation by the other nations.

Those who so argue either are grossly and inexcusably ignorant of what is going on elsewhere in the world or they refuse to see in the action of other nations any lesson for the United States. The United States is practically the only nation of any consequence which has not written a new tariff since the end of the World war. While free traders and foreign propagandists tell this country it is unwise to attempt to frame tariff laws with the world so upset, it is very significant that other countries have not delayed protecting their home markets and their home industries. They have acted upon the very wise and patriotic theory that the worse the general conditions, the more need there is for looking after the interests of their own people.

These new foreign tariffs, without exception, make a stiff advance in rates and, without exception, have been enacted to protect the home markets and industries of the nations enacting them. Great Britain, her colonies and dominions, have led the world in coming to a protective tariff basis since the World war. And in addition to a high protective tariff put into effect Oct. 1, 1921, the United Kingdom has also an anti-dumping provision which prohibits the importation and sale of goods at prices below the cost of home production.

THE SUBSIDY BILL

SOME of our public men and our newspapers opposing the subsidy bill seem to think that anything bearing the word "subsidy" should be opposed, without investigation, on the general principle that subsidy is a polite word for stealing. Americans who are in honor bound to use their brains in their country's behalf ought to know better. They should be ashamed to oppose the ship subsidy bill unless after diligent inquiry they honestly believe it to be wrong. In that case they should propose some other method of meeting the present situation.

There is a condition confronting the United States in dealing with oceanic transportation which demands clear thinking and courageous action. It is no time for waving aside a ship subsidy merely because former proposals for ship subsidies have been objectionable. The situation that now exists never existed before. Because the policy proposed has never been adopted before is not a very good reason why it should not be adopted now.

In addition to the advantage of cheap wages and lower costs generally, the foreign nations that have made a specialty of shipping have granted subsidies to builders and owners. It is by this device that England and Germany ruined a fine fleet of ships that once carried the American flag into every port in the world. The object of the proposed subsidy bill is to build up an American marine that will prevent the freight nearly all going to foreign ships, as at present, because of the great financial burdens to American shipping.

BIG INCOMES DWINDLING

SOME most interesting and surprising figures are shown in a report of the Federal income tax bureau giving the individual incomes returned from 1914 to 1920, which was published a few days ago. These figures are, indeed, quite important, indicating as they do, if the returns reflect the facts, that the rich are no longer growing richer and the poor poorer, as was formerly frequently asserted. It is hard to believe that the larger incomes are so few in number, but these figures show that to be the case, and if correct the rich now appear to be growing poorer and the poor richer.

The report, in brief, shows according to a New York correspondent that within three years the number of those having incomes of as much as \$100,000 or more has been nearly halved. ENDS 56 YEARS AT ENGINE THROTTLE

T. H. "Tim" Brady Has Been Running
Engines for Northern Pacific
the Past 54 Years

MADE LAST RUN ON SATURDAY

First Came to Brainerd When It Was
But a Tented City—Never In-
jured Passenger in Career

T. H. Brady of 516 North 9th street, known to the people of this city as "Tim" Brady left yesterday, June 30, for his last run as an engineer on the Northern Pacific railroad. This last run takes him to Morris and from there he returned Saturday arriving at Brainerd at 2:10 p. m. when he completed a stretch of 56 years on the railroad.

Mr. Brady who has been running engines for the past 54 years, came to Brainerd and entered the service of the Northern Pacific railroad in 1871 when Brainerd was a city of tents. He has watched the city's growth through all these years, retiring voluntarily on pension and will be at leisure to help celebrate the Fiftieth anniversary of the incorporation of the city whose growth he has noted with interest and pleasure.

One who has been so long in a town becomes in a special sense a representative citizen and Mr. Brady is a representative of the solid citizenship which makes for the stability and security of the old, home town. He has a warm affection for the city in which he has spent so many years and in turn has won the appreciation of his fellow citizens of Brainerd who are ready to congratulate him on his long service to the railroad and his contribution to Brainerd's growth.

When Mr. Brady came to this city there were two banks which, said he with a smile, were faro "banks which were open both day and night." He used this in illustration of the contrast between things as they were then and things as they are now at the time of Brainerd's Fiftieth anniversary.

It is practically certain that Mr. Brady is the oldest engineer in the state of Minnesota in length of service and as is natural is deeply attached to his work at the throttle of the engine. One can well believe that it is not without a sense of loss that he retires at this time to enjoy the rest

which is his by right of long and meritorious service.

On the editorial page of the Locomotive Engineers Journal for the month of May, 1922, there appeared under the caption "The Golden Rule Exemplified" the following:

Minneapolis, Minn.,
Mar. 13, 1922
Mr. T. H. Brady,
Engineman,
Mississippi Street,
St. Paul, Minnesota.

I have your letter of the 9th inst., explaining the derailment of engine 726 on train No. 30 at derail, east of track No. 1, Sauk Center, March 9th.

I note your acknowledgement of the responsibility, your regret and statement that the derailment was undoubtedly due to your head not working very well on that particular day.

After going over your personal record, which takes in fifty-one years of service, and finding it clear, I cannot bring myself to believe that a head that has worked so faithfully for fifty-one years should go wrong on March 9th, therefore the occurrence will be placed in the unavoidable class and your record will remain as it was before.

It certainly gives me great pleasure to write this letter in a sort of a return for the good service that you have given this company since entering the service in 1871.

Your truly,
(Signed) T. F. Lowery, Supt.
We take great pleasure in publishing the foregoing letter, it rings so true with kindness, consideration and appreciation.

Men will take off their coats to give the best they've got for an official so broad and so appreciative of good work as Superintendent Lowery, for with the spirit he has shown in his letter to Brother T. H. Brady goes other qualities that are bound to command the respect of the men in their work and their loyalty to the company.

This is signed "Editor" by the editor of the Journal which is published at Des Moines, Iowa.

Seven girls and two boys have been born into Mr. Brady's home. One of the boys, John, was the first boy to respond to the call for men for service on the Mexican border. He then came home but soon left for France for service with the A. E. F. He is now a student of mining engineering at Houghton, Michigan, and is paying his own way through school. John was for some time a clerk in the First National bank here.

Four of the daughters are married

BRAINERD'S FIRST GAME AT HOME

Twin Ports Team Opens Three Game
Series Here on Sunday, July
2nd

BRAINERD LINEUP IS GIVEN

Rodman's Orchestra Out July 2 and
3, Brainerd Municipal Band at
Park July 4th

Brainerd's first game at home will be played on Sunday, July 2nd. The Twin Ports team is coming here for a series of three games, Sunday, Monday and Tuesday, July 2, 3 and 4.

This will be the first opportunity afforded the people in Brainerd of seeing its all-home team in action.

The lineup will be Soderlund, pitcher, Caron catcher, Molstad first base, Emerson second base, Roderick third base, Stallman shortstop, Imgrund left field, Belfy centerfield, Clark right field. Soderlund has allowed but two hits in 18 innings and it is expected that he will keep up the good work. Brainerd folks are asked to come out and root. Hon. Frank E. Little will throw the first ball and the game will be on.

Rodman's Imperial orchestra will be on hand Sunday to render its favorite music, and these present will be guaranteed a good time by the boys. They promise to make the spectators laugh and to keep them laughing.

The Sunday game will start at 3 o'clock; Monday's game at 4:15 and Tuesday's game at 3 o'clock. On the 4th of July the Brainerd Municipal band will play at the park.

The Fourth of July game is under the auspices of the ex-service men. All citizens are asked to be out to see Brainerd's home talent team, to hear Rodman's wonderful orchestra

and are living in Grand Forks, North Dakota. Miss Gertrude is cashier in a bank at Arville, North Dakota, and Margaret is receiving nurse at the Northern Pacific hospital in St. Paul.

The Lions' club members went in a body Saturday afternoon to the 2:10 train and met Mr. Brady at the conclusion of his last run after 51 years of service on an engine. A large bouquet was presented to him and he was conveyed to his home in an automobile by members of the club. Mr. Brady was invited to be the guest of the club at its next luncheon and regular meeting on Monday evening.

The Fiftieth anniversary advisory committee were at the depot this afternoon to meet the train on its arrival and to congratulate Mr. Brady in the completion of his long service.

Stimulated Interest in Sale of 50th

The Lions' club sent out its noise-makers again Friday evening to stimulate interest in the purchase of buttons to aid in the celebration of the Fiftieth anniversary. The uncertain weather interfered with the program and delayed the marching of these rosters.

Bouma, a regular Tennessee cracker, spoke of the good work. Stitzel pounded the base drum and Oscar Risberg and his son Charles beat the snare drums. Vern L. Hitch, dressed like a modern flapper, sat by Bouma's side in the first buggy ever seen in Brainerd. Dr. W. A. Erickson reported and was in the parade. Carl Rodman of Northeast Brainerd played the notes of his saxophone to the melody.

ENDS 56 YEARS AT ENGINE THROTTLE

T. H. "Tim" Brady Has Been Running
Engines for Northern Pacific
the Past 54 Years

MADE LAST RUN ON SATURDAY

First Came to Brainerd When It Was
But a Tented City—Never In-
jured Passenger in Career

T. H. Brady of 516 North 9th street, known to the people of this city as "Tim" Brady left yesterday, June 30, for his last run as an engineer on the Northern Pacific railroad. This last run takes him to Morris and from there he returned Saturday arriving at Brainerd at 2:10 p. m. when he completed a stretch of 56 years on the railroad.

Mr. Brady who has been running engines for the past 54 years, came to Brainerd and entered the service of the Northern Pacific railroad in 1871 when Brainerd was a city of tents. He has watched the city's growth through all these years, retires voluntarily on pension and will be at leisure to help celebrate the Fiftieth anniversary of the incorporation of the city whose growth he has noted with interest and pleasure.

One who has been so long in a town becomes in a special sense a representative citizen and Mr. Brady is a representative of the solid citizenship which makes for the stability and security of the old, home town. He has a warm affection for the city in which he has spent so many years and in turn has won the appreciation of his fellow citizens of Brainerd who are ready to congratulate him on his long service to the railroad and his contribution to Brainerd's growth.

When Mr. Brady came to this city there were two banks which, said he with a smile, were faro "banks which were open both day and night." He used this in illustration of the contrast between things as they were then and things as they are now at the time of Brainerd's Fiftieth anniversary.

It is practically certain that Mr. Brady is the oldest engineer in the state of Minnesota in length of service the time of his retiring and it is probable that he is, the oldest engineer in actual service in the United States. For the veteran will have reached the age of 79 on his next birthday.

Mr. Brady has considerable pride in his record through all these years and as is natural is deeply attached to his work at the throttle of the engine. One can well believe that it is not without a sense of loss that he retires at this time to enjoy the rest.

On the editorial page of the Locomotive Engineers Journal for the month of May, 1922, there appeared under the caption "The Golden Rule Exemplified" the following:

Minneapolis, Minn.,
Mar. 13, 1922

Mr. T. H. Brady,
Engineman,
Mississippi Street,
St. Paul, Minnesota.

I have your letter of the 9th inst., explaining the derailment of engine 726 on train No. 30 at derail, east of track No. 1, Sauk Center, March 9th.

I note your acknowledgment of the responsibility, your regret and statement that the derailment was undoubtedly due to your head not working very well on that particular day.

After going over your personal record, which takes in fifty-one years of service, and finding it clear, I cannot bring myself to believe that a head that has worked so faithfully for fifty-one years should go wrong on March 9th, therefore the occurrence will be placed in the unavoidable class and your record will remain as it was before.

It certainly gives me great pleasure to write this letter in a sort of a return for the good service that you have given this company since entering the service in 1871.

Your truly,
(Signed) T. F. Lowery, Supt.

We take great pleasure in publishing the foregoing letter, it rings so true with kindness, consideration and appreciation.

Men will take off their coats to give the best they've got for an official so broad and so appreciative of good work as Superintendent Lowery, for with the spirit he has shown in his letter to Brother T. H. Brady goes other qualities that are bound to command the respect of the men in their work and their loyalty to the company.

This is signed "Editor" by the editor of the Journal which is published at Des Moines, Iowa.

Seven girls and two boys have been born into Mr. Brady's home. One of the boys, John, was the first boy to respond to the call for men for service on the Mexican border. He then came home but soon left for France for service with the A. E. F. He is now a student of mining engineering at Houghton, Michigan, and is paying his own way through school. John was for some time a clerk in the First National bank here.

Four of the daughters are married.

BRAINERD'S FIRST GAME AT HOME

Twin Ports Team Opens Three Game
Series Here on Sunday, July
2nd

BRAINERD LINEUP IS GIVEN

Rodman's Orchestra Out July 2 and
3, Brainerd Municipal Band at
Park July 4th

Brainerd's first game at home will be played on Sunday, July 2nd. The Twin Ports team is coming here for a series of three games, Sunday, Monday and Tuesday, July 2, 3 and 4.

This will be the first opportunity afforded the people in Brainerd of seeing its all-home team in action.

The lineup will be Soderlund, pitcher, Caron catcher, Molstad first base, Emerson second base, Roderick third base, Stallman shortstop, Imgrund left field, Belfy centerfield, Clark right field. Soderlund has allowed but two hits in 18 innings and it is expected that he will keep up the good work. Brainerd folks are asked to come out and root. Hon. Frank E. Little will throw the first ball and the game will be on.

Rodman's Imperial orchestra will be on hand Sunday to render its favorite music, and these present will be guaranteed a good time by the boys. They promise to make the spectators laugh and to keep them laughing.

The Sunday game will start at 3 o'clock; Monday's game at 4:15 and Tuesday's game at 3 o'clock. On the 4th of July the Brainerd Municipal band will play at the park.

The Fourth of July game is under the auspices of the ex-service men. All citizens are asked to be out to see Brainerd's home talent team, to hear Rodman's wonderful orchestra

and are living in Grand Forks, North Dakota. Miss Gertrude is cashier in a bank at Arville, North Dakota, and Margaret is receiving nurse at the Northern Pacific hospital in St. Paul.

The Lions' club members went in a body Saturday afternoon to the 2:10 train and met Mr. Brady at the conclusion of his last run after 51 years of service on an engine. A large bouquet was presented to him and he was conveyed to his home in an automobile by members of the club. Mr. Brady was invited to be the guest of the club at its next luncheon and regular meeting on Monday evening.

The Fiftieth anniversary advisory committee were at the depot this afternoon to meet the train on its arrival and to congratulate Mr. Brady on the completion of his long service.

LIONS BUSY AGAIN

Stimulated Interest in Sale of 50th
Anniversary Celebration But-
tons

The Lions' club sent out its noise-makers again Friday evening to stimulate interest in the purchase of buttons to aid in the celebration of the Fiftieth anniversary. The unfavorable weather interfered with the program and delayed the marching of these rosters.

Bouma, a regular Tennessee cracker, spoke of the good work. Stitzel pounded the base drum and Oscar Risberg and his son Charles beat the snare drums. Vern L. Hitch, dressed like a modern flapper, sat by Bouma's side in the first buggy ever seen in Brainerd. Dr. W. A. Erickson reported and was in the parade. Carl Rodman of Northeast Brainerd aided the notes of his saxophone to the melody.

Vigilantes Rival the Ku Klux Klan
Have you ever heard of the Vigilantes? Are you familiar with the Ku Klux Klan? The Vigilantes in American history were to the West what the Ku Klux Klan was to the South—a secret organization devoted to combating the lawless element of San Francisco, in the tumultuous period following the gold rush of '49.

Benj. B. Hampton has woven a tense drama around the deeds and fiery ac-

tion of the Vigilantes against the most colorful setting of the most interesting period of the West from his photodramatization of Stewart Edward White's famous novel, "The Gray Dawn," appearing at New Park last

time tonight.

Labor Picture at New Park

Between the ceaselessly grinding millstones of organized labor and organized capital is constantly being

ground the unorganized bourgeoisie—the great middle class, the backbone of the nation, an unorganized conglomeration of fifty million human beings suffering—and paying for the victories of capital over labor. The chances are five to one that you belong to "Wilkins" class. If not you are sure to fit in as one of the characters appearing in J. L. Frothingham's initial film produced for Associated Producers and will be shown at the New Park Sunday only. "The Ten Dollar Raise" is a striking human inter-

est drama of everyday life and you will see yourself among the all-star cast of players.

Now is the Time to Make a Will

THE time to make a Will is not next month or next year, or when you are on the sick bed—but right now.

Over 70% of property owners leave no Wills. Think of it! Perhaps 90% of those who die without a Will seriously intended to make one "some day," but they put it off until too late.

Neglect—nothing else—robbed them of the legal right to say how their property should be distributed. Neglect—nothing else—robbed dependents of the satisfaction which comes with the knowledge that wise provision has been made for their future.

Decide today how you want your property distributed. Then consult your attorney. He will help you to express your wishes in a Will that will stand the test of the law.

Our Folder, "HELP FOR WILL-MAKERS," has started many men on the right track in planning their Wills. You should have a copy. Ask for it.

PAIGE

During the first six months of this year, the Paige-Detroit Motor Car Company manufactured and sold fifty per cent more automobiles than were produced during the entire year of 1921.

There could be no more substantial tribute to the worth and outstanding value of the Paige and the Jewett. Such a sales record proves conclusively that these two great motor cars have been accepted as leaders in their respective fields.

At the Lyceum

You'll see Miss du Pont at the Lyceum theatre tonight in the midst of a bloodthirsty looking bunch of Apaches in her latest Universal starring picture, "Shattered Dreams."

You'll also see Herbert Heyes, leading man par excellence, as the most vicious of the underworld Parisians.

"Shattered Dreams" is the story of a young sculptress, studying her art in the Latin quarter and ambitious to get ahead—but a little too beautiful to have an easy time of it.

The dress of the Apache is something to be marvelled at—a costume primitive in its significance, weirdly striking in its appearance.

The true denizen of subterranean Paris wears a short black velvet jacket with big patch pockets, and underneath, a white shirt. At all times he wears a silk handkerchief about his neck, for there is a certain fear among these people that they will catch cold—and no wonder, considering how damp and sunless their haunts are, two or three stories under the ground. The handkerchief is black, and so is the jacket, and their long, velvet peg-top trousers, and the silk girdle about their waists.

Soft black patent leather pumps are worn by the Apache, thin soles and soft heeled, for running purposes. The trousers just meet the shoes and fit closely about the calves and ankles.

Vigilantes Rival the Ku Klux Klan
Have you ever heard of the Vigilantes? Are you familiar with the Ku Klux Klan? The Vigilantes in American history were to the West what the Ku Klux Klan was to the South—a secret organization devoted to combating the lawless element of San Francisco, in the tumultuous period following the gold rush of '49.

Benj. B. Hampton has woven a tense drama around the deeds and fiery ac-

tion of the Vigilantes against the most colorful setting of the most interesting period of the West from his photodramatization of Stewart Edward White's famous novel, "The Gray Dawn," appearing at New Park last

time tonight.

Labor Picture at New Park

Between the ceaselessly grinding millstones of organized labor and organized capital is constantly being

ground the unorganized bourgeoisie—the great middle class, the backbone of the nation, an unorganized conglomeration of fifty million human beings suffering—and paying for the vic-

est drama of everyday life and you will see yourself among the all-star cast of players.

Now is the Time to Make a Will

THE time to make a Will is not next month or next year, or when you are on the sick bed—but *right now*.

Over 70% of property owners leave no Wills. Think of it! Perhaps 90% of those who die without a Will seriously intended to make one "some day," but they put it off until too late.

Neglect—nothing else—robbed them of the legal right to say how their property should be distributed. Neglect—nothing else—robbed dependents of the satisfaction which comes with the knowledge that wise provision has been made for their future.

Decide today how you want your property distributed. Then consult your attorney. He will help you to express your wishes in a Will that will stand the test of the law.

Our Folder, "HELP FOR WILL-MAKERS," has started many men on the right track in planning their Wills. You should have a copy. Ask for it.

At the Lyceum

You'll see Miss du Pont at the Lyceum theatre tonight in the midst of a bloodthirsty looking bunch of Apaches in her latest Universal starring picture, "Shattered Dreams."

You'll also see Herbert Heyes, leading man par excellence, as the most vicious of the underworld Parisians.

"Shattered Dreams" is the story of a young sculptress, studying her art in the Latin quarter and ambitious to get ahead—but a little too beautiful to have an easy time of it.

The dress of the Apache is something to be marvelled at—a costume primitive in its significance, weirdly striking in its appearance.

The true denizen of subterranean Paris wears a short black velvet jacket with big patch pockets, and underneath, a white shirt. At all times he wears a silk handkerchief about his neck, for there is a certain fear among these people that they will catch cold—and no wonder, considering how damp and sunless their haunts are, two or three stories under the ground. The handkerchief is black, and so is the jacket, and their long, velvet peg-top trousers, and the silk girdle about their waists.

Soft black patent leather pumps are worn by the Apache, thin soles and soft heeled, for running purposes. The trousers just meet the shoes and fit closely about the calves and ankles.

PAIGE

During the first six months of this year, the Paige-Detroit Motor Car Company manufactured and sold fifty per cent more automobiles than were produced during the entire year of 1921.

There could be no more substantial tribute to the worth and outstanding value of the Paige and the Jewett. Such a sales record proves conclusively that these two great motor cars have been accepted as leaders in their respective fields.
